OBJECTIVE

Web Developer with 3+ years of experience in full-stack development, technical support, and cross-functional collaboration across SaaS and customer-focused environments. Proven ability to design and implement scalable, user-friendly web applications using modern frameworks and tools. Improved platform responsiveness and user satisfaction by developing and deploying mobile-first features, streamlining support workflows, and contributing to agile product teams. Known for bridging the gap between technical execution and end-user needs.

EDUCATION

Post Graduate Diploma in Web Development, Conestoga College – Ontario, Canada 2024 – 2025
Graduated with Distinction (GPA: 3.56)

Bachelor of Computer Applications, Dr. C.V. Raman University – Mumbai, India 2020 - 2023
First Class Honors

SKILLS

Programming Languages:	JavaScript, TypeScript, Python, SQL, R, HTML5, CSS3
Frameworks & Libraries:	React.js, Next.js, Node.js, Express.js, Bootstrap, Tailwind CSS, GSAP
Databases:	MongoDB, MySQL, PostgreSQL
APIs & Services:	GraphQL, RESTful APIs, Clerk Authentication
Tools & Platforms:	Git, GitHub, Power BI, Tableau, Excel

EXPERIENCE

Electronics & IT Department Associate Sep 2024 – Jun 2025
Mission Thrift Store *Kitchener, ON*

- Delivered tailored tech support to customers, improving satisfaction and contributing to a 15% increase in positive feedback for the electronics section.
- Diagnosed, refurbished, and priced electronic items, increasing inventory turnover and boosting electronics sales by 25%.
- Optimized cross-departmental workflows, reducing restocking time and improving overall store efficiency by 20%.

PROJECTS

Travel App – Hilink (AR Outdoor Explorer)

Built an immersive travel app with offline map access and AR-guided navigation to enhance outdoor exploration. Improved user retention by 30% through dynamic trip planning and personalized route suggestions. [Live site](#)

Cocktail Site – Scroll-Driven Interactive Experience

Designed a high-performance website featuring SplitText reveals, parallax scroll, pinned animations, and scroll-triggered video syncing using GSAP. Enhanced user engagement with cinematic storytelling and a fully responsive UI. [Live site](#)

TinDog – Subscription-Based Landing Page

Created a mobile-first, responsive front page for a fictional pet dating service to showcase clean design and subscription call-to-action. Demonstrated expertise in layout design and responsive UI using Bootstrap. [Live site](#)
